## Narratives

**Disaster Damage:****Housing:**

New Jersey's CDBG-DR Action Plan detailed the substantial damage that Superstorm Sandy caused to the State's housing sector. While damage from Superstorm Sandy occurred throughout the state, housing damage was particularly concentrated in communities bordering or near the Atlantic Ocean or the Hudson River. Many of these communities were flooded by Sandy's storm surge. FEMA Individual Assistance data as of March 12, 2013 reflected that the greatest concentrations of housing damage were located in the following counties: Atlantic (12%), Bergen (5%), Cape May (4%), Essex (2%), Hudson (6%), Middlesex (5%), Monmouth (16%), Ocean (35%) and Union (6%). Superstorm Sandy significantly affected both homeowner and rental properties. Based on FEMA Individual Assistance data effective March 12, 2013, approximately 40,500 owners' primary residences and over 15,600 rental units sustained "severe" or "major" damage according to classifications made by HUD. Moreover, many residences were "substantially damaged," meaning that damages exceed 50% of the homes pre-disaster value. In total, the FEMA data from March 12, 2013 indicated that 59,971 owner-occupied homes and 21,900 rental units sustained some level of physical damage from the storm. As referenced in the State's Action Plan, these figures likely underestimate the breadth of Superstorm Sandy's impact on the housing sector. The storm's impact on low- to moderate-income (LMI) households in New Jersey was particularly pronounced. FEMA Individual Assistance data as of March 12, 2013 demonstrated that of applicants who reported major or severe damage to their homes, 49% were LMI households. Moreover, 74% of renters that reported damage to their homes to FEMA were LMI households. While LMI households throughout the State were affected by the storm, the most impacted LMI households generally were within the counties with the greatest concentrations of damage, identified above.

**Economic Development:**

Superstorm Sandy devastated many businesses in New Jersey, causing substantial commercial property damage and short-term and long-term business operations losses. In addition to the physical damage Sandy caused to businesses themselves, widespread power outages resulted in inventory losses and working capital losses. Damage to public infrastructure such as roads, rail and bridges as well as compromised water utility systems and gas unavailability compounded those damages. This explains why data compiled soon after the storm suggested that businesses within 113 of New Jersey's 565 municipalities incurred a combined \$382,000,000 in commercial property losses and another \$63,900,000 in business interruption losses. While Superstorm Sandy caused damage across all state industries, some industries -- particularly the tourism industry -- were substantially affected. The storm also is estimated to have affected over 1,000,000 employees in New Jersey's workforce. Data compiled in the months after the storm indicates that approximately 138,000 workers filed unemployment claims in November 2012, the first full month after Superstorm Sandy. By comparison, unemployment claims in November 2011 totaled 54,444 claims.

**Infrastructure:**

Superstorm Sandy's storm surge and associated flooding extensively impacted New Jersey's infrastructure. Critical facilities and assets throughout the State were directly damaged. Sandy left nearly seventy percent of ratepayers statewide without electricity. Water and wastewater treatment facilities were unable to sustain operations. Roadways experienced significant damage from extensive flooding and sustained winds resulted in debris that made critical evacuation routes impassable. Rail and other public transit systems, which suspended operations in anticipation of the storm, were substantially damaged.

**Recovery Needs:****Housing:**

New Jersey estimated in its Action Plan an unmet need in the housing sector totaling \$2,504,993,992. The State calculated that figure by adding estimated repair and replacement costs and estimated costs for required elevations to reach a total need figure. The State then subtracted funding provided from other sources such as private insurance, FEMA, and SBA, to reach the unmet need. As

stated in the Action Plan, this figure likely understates the extent of New Jersey’s housing needs.

**Economic:**

New Jersey estimated in its Action Plan an unmet need in the economic sector of \$1,727,813,413. The State calculated that figure by adding estimated commercial losses and business interruption losses to arrive at a total need figure. The State then subtracted funding provided from other sources, such as commercial insurance and SBA. As stated in the Action Plan, this figure does not account for long-term losses or systemic impacts to the State’s key economic base, notably the tourism and coastal real estate market. As a result, this figure likely understates the extent of New Jersey’s needs in the economic sector.

**Infrastructure:**

New Jersey estimated in its Action Plan an unmet need in the infrastructure sector of \$25,432,594,266. The State calculated that figure by adding estimated damage costs to needed hazard mitigation measures to arrive at a total need figure. The State then subtracted funding provided from other sources, such as FEMA Public Assistance. As stated in the Action Plan, these figures are preliminary and subject to change.

**Affirmatively Further Fair Housing:**

The State is committed to affirmatively further fair housing through its housing programs, following all applicable federal and state statutes and regulations, and enforcing fair housing laws. The State will ensure that housing assistance relating to Superstorm Sandy recovery is prioritized and allocated solely based on disaster-related need, without regard to race or ethnicity. Information relating to demographics of impacted communities will be utilized to ensure that assistance is accessible and reaches New Jerseyans in need. In support, the State, among other things, has stood up household assistance centers in each of the nine most impacted counties to assist residence and communities with recovery programs and the application process.

## Overall Progress Narrative:

Overall Progress Narrative:  
Summary for Second Quarter 2021 QPR:

The State of New Jersey (State), Department of Community Affairs (DCA), as the grantee of Community Development Block Grant-Disaster Recovery (CDBG-DR) funding allocated to New Jersey by the U.S. Department of Housing and Urban Development (HUD) for Superstorm Sandy (Sandy) recovery, has prepared this Quarterly Performance Report (QPR) addressing CDBG-DR funding and expenditures through the second quarter of 2021 (April-June).

This QPR shows that, through June 30, 2021, the State expended more than \$3.48B in CDBG-DR funds, and approximately \$14.53M in Program Income. As of the second quarter of 2021, the total CDBG-DR expenditures for low-to-moderate (LMI) populations in New Jersey account for approximately 56 percent of the State's total CDBG-DR expenditures. The report that follows highlights the State's continued progress in executing CDBG-DR recovery programs.

### HOUSING RECOVERY ACTIVITIES:

The RREM Program provides grants of up to \$150,000 to eligible, Sandy-impacted homeowners to reconstruct, repair, elevate or undertake mitigation measures for their storm-damaged primary homes. As of June 30, 2021, of the approximately 7,100 homeowners participating in RREM, 6,757 had completed construction. Also, more than \$947M of RREM funding was disbursed to eligible participants.

The Low-to-Moderate Income (LMI) Homeowner Rebuilding Program provides reconstruction, rehabilitation, elevation and mitigation assistance of up to \$150,000 to LMI homeowners whose primary residences were damaged by Superstorm Sandy but who did not apply to the RREM Program. The LMI Program includes a reserve of funding for owners of manufactured housing units/mobile homes to ensure that this group receives needed assistance. As of June 30, 2021, 244 projects had completed construction and more than \$37M in program funding had been disbursed to eligible participants.

The State accepted applications in 2019 for the Supplemental Fund, which is exclusively for homeowners in the RREM Program and the LMI Program who have a program-calculated unmet need and who have yet to complete construction. During the application period, 533 applications were submitted. As of June 30, 2021, 118 Supplemental Fund awards were in various stages of processing and 415 homeowners had been notified that they were not eligible for additional funding. Sandy-impacted households are served through the Sandy Recovery Housing Counseling Program, which provides free HUD-certified housing guidance through community-based nonprofit housing counseling agencies on a wide array of issues, including foreclosure, homelessness prevention, budgeting, rental guidance, and utility help. As of June 30, 2021, 12,844 Sandy-impacted households of low-to-moderate income received housing counseling services through the program and approximately \$10.1M was expended.

To assist Sandy-impacted homeowners who face frequent flooding, the State is administering the Sandy Blue Acres Buyout Program in part with CDBG-DR funds. Blue Acres helps New Jersey families in flood zones move out of harm's way and enhances community flood resiliency. With respect to CDBG-DR funds, buyouts are underway in 12 municipalities (Keansburg, Linden, Manville, New Milford, Ocean Township, Old Bridge, Pemberton, Pleasantville, Rahway, Southampton, South River, and Wodbridge). Within these municipalities, 177 properties have been purchased, 1 property donated, and 161 homes demolished as of June 30, 2021.

The State also continues to create affordable rental units with CDBG-DR funding. The State's largest affordable rental housing Sandy recovery initiative is the Fund for Restoration of Multifamily Housing (FRM) Program. During the first 90 days of lease-up for any FRM-funded project, developers must prioritize Sandy-impacted households who apply. As of June 30, 2021, 76 FRM-funded projects were complete, creating approximately 5,600 units. Another two projects were under construction and will create approximately 120 units. The State has awarded \$30M in FRM funding to nine public housing authority projects, six of which have completed construction.

The Sandy Special Needs Housing Fund (SSNHF) provides funding for permanent supportive rental housing units for special needs populations. Funds have been awarded to 53 projects that are expected to create approximately 440 households for individuals with special needs. As of the second quarter of 2021, 414 special needs households were completed and about 25 special needs households were under construction.

The Neighborhood Enhancement Program (NEP) returns abandoned or blighted housing to viability. To achieve this, NEP provides no-interest loans to eligible developers to purchase and rehabilitate properties in counties most impacted by Sandy. DCA has awarded NEP loans to 42 projects (189 housing units). As of June 30, 2021, 35 of the projects are completed and occupied, providing 128 rental units and 32 homeowner units. An additional four projects are completed and awaiting occupancy. The remaining three projects are under construction.

### ECONOMIC RECOVERY AND REVITALIZATION ACTIVITIES:

Since inception, the Stronger NJ Business Programs have created or retained 6,467 jobs. The Stronger NJ Business Loan Program, which provides loans of up to \$5M to storm-impacted businesses, approved nearly

\$87.2M in loans for 122 businesses as of the second quarter of 2021. Of these businesses, 116 are fully disbursed. To date, more than \$82.8M has been disbursed to businesses.

The Stronger NJ Business Grant Program provides grants of up to \$50,000 to storm-affected businesses. As of June 30, 2021, 1,150 small businesses have been approved for and received grants totaling \$55.9M.

The State also administers the Stronger NJ Neighborhood and Community Revitalization (NCR) Program, which invests in municipal projects through two initiatives: The Streetscape Revitalization Program and the Development & Public Improvement Program (D&I).

The Streetscape Program consists of 19 unique construction related projects. All projects have received authorization from HUD to proceed and have executed their subrecipient agreements. At the end of the second quarter of 2021, 16 projects are complete, and three projects are currently underway. To date, more than \$13.5M has been disbursed.

The D&I Program consists of 19 construction-related projects, all of which have executed their subrecipient agreements. Two projects are currently underway, 16 projects are complete, and one project has had their agreement terminated by the New Jersey Economic Development Authority. Thus far, \$45.5M has been disbursed for D&I projects.

#### INFRASTRUCTURE AND RESILIENCY ACTIVITIES

The extensive damage and power outages caused by Superstorm Sandy prompted the State to create the Energy Resilience Bank (ERB) to assist critical facilities such as hospitals, water treatment plants and wastewater facilities with securing resilient energy technologies that will make them – and by extension, the communities they serve – less vulnerable to future severe weather events and other emergencies. Through the second quarter of 2021, six projects are in construction (South Monmouth Regional Sewage Authority in Wall Township, Ocean County Utilities Authority in Stafford Township, Trinitas Regional Medical Center in Elizabeth, University Hospital in Newark, Hunterdon Medical Center in Flemington, and RWJ Barnabas – Livingston). The project at St. Peter’s University Hospital in New Brunswick is complete. Also, the project at Cooper Health System in Camden is complete and in close-out. Three additional projects have been approved and have executed their subrecipient agreement: Bergen County Utilities Authority in Little Ferry, Newark Beth Israel Medical Center in Newark, and RWJ Barnabas-Somerset in Somerville.

The Flood Hazard Risk Reduction and Resiliency Grant Program consists of an infrastructure component to support communities with flood hazard risk reduction projects and an easement acquisition component to support Army Corps of Engineers flood protection projects on the shore. Eight infrastructure projects have received awards and completed their environmental review. As of June 30, 2021, projects in Brigantine, Atlantic County; Little Ferry, Bergen County; and Spring Lake, Monmouth County are complete, and the other five projects are in various stages of the development and construction process. For the easement acquisition component, the State continued in the second quarter of 2021 to finalize and issue compensation to condemned property owners through legal actions with counsel. All real estate rights needed to construct the current projects have been obtained and projects have been constructed or are being constructed.

The State is also administering two projects developed through HUD’s Rebuild By Design (RBD) competition: the Meadowlands Flood Protection Project and the Hudson River Project: “Resist, Delay, Store and Discharge.”

During the second quarter of 2021, the RBD Meadowlands Project Team continued the design phase of the Selected Alternative (Alternative 3 Build Plan), which will be constructed with the allocated CDBG-DR funds.

During the second quarter of 2021, work was done on the sewer separation modification (SSM) for the RBD Hudson River Project, which includes Hoboken and parts of Jersey City and Weehawken. The SSM is taking place in the public right-of-way in Hoboken and Hudson County streets; therefore, no easements were required. Hoboken-owned property easements have been secured. Other easement acquisition, both public and private, continues for the flood resist project.

**Activity Description:**

Many Sandy-impacted homeowner had significant property damage to their residences and have suffered diminished property values. Moreover, some homeowners whose residences were substantially damaged by the storm will be required to elevate their residences. Additionally, with the passage of the Biggert-Waters Flood Insurance Act, flood insurance premiums for many are likely to rise, particularly for residences not above FEMA's base flood elevation. All of these costs threaten to force homeowners, and particularly LMI households, to leave their communities. The Homeowner Resettlement program is targeted to alleviate some of the pressures facing homeowners impacted by Superstorm Sandy.

**Location Description:**

Counties: Atlantic, Bergen, Cape May, Essex, Hudson, Middlesex, Monmouth, Ocean, and Union.

**Activity Progress Narrative:**

Voucher Revisions and Expense Modifications were made for Resettlement credits in RREM-DCA-LMI-R1 in order to put credits correctly into HRP from RREM.

**Activity Description:**

Many Sandy-impacted homeowner had significant property damage to their residences and have suffered diminished property values. Moreover, some homeowners whose residences were substantially damaged by the storm will be required to elevate their residences. Additionally, with the passage of the Biggert-Waters Flood Insurance Act, flood insurance premiums for many are likely to rise, particularly for residences not above FEMA's base flood elevation. All of these costs threaten to force homeowners, and particularly LMI households, to leave their communities. The Homeowner Resettlement program is targeted to alleviate some of the pressures facing homeowners impacted by Superstorm Sandy.

**Location Description:**

Counties: Atlantic, Bergen, Cape May, Essex, Hudson, Middlesex, Monmouth, Ocean, and Union.

**Activity Progress Narrative:**

Voucher Revisions and Expense Modifications were made for Resettlement credits in RREM-DCA-UN-R1 in order to put credits correctly into HRP from RREM.

**Activity Description:**

This project consists of a system would include approximately 4.25 acrefeet of underground storage connected to a pump structure containing three pumps. The pumps would each have a maximum pumping capacity of 55

CFS and would collectively discharge to the ocean through a single 42" diameter ductile iron outfall pipe. To ensure that the system will continue to operate in the event of a power failure, a generator with fuel tank and a control building will be constructed above the 500year flood elevation. This configuration, along with the replacement of many of the conveyance pipes throughout the area, will prevent the vast majority of flooding that currently occurs. The project will also reduce flooding impacts in the largest Stormwater runoff and tidal events. The proposed pump station will allow for the Pacific Avenue area to be drained of all water within a few hours after tidal elevations have receded below the 6.8 elevation. The existing outfalls quickly become clogged in large storm events and prevent the area from draining until Public Works staff is able to access the outfalls and reestablish trenches that connect to the ocean. Accessing the beach and reestablishing the outfalls can take days after the most severe events. During this time, significant additional damage occurs while the water remains and continues to flood the area. The installation of the pump system would allow this area to be drained by forcing the water out into the ocean immediately after the tide water receded in large storm events.

**Location Description:**

4400 New Jersey Avenue, Wildwood, New Jersey, 08260

**Activity Progress Narrative:**

Funds in the amount of \$1,388,062.54 were expended in support of the construction of a pump station and outfall in the City of Wildwood.

### Activity Progress Narrative:

The final active project in this activity is the Historic Preservation Office (HPO) Report Scanning. Scanning continues with DORES, and 9 batches totaling approximately 4170 reports have been scanned and downloaded. Batch 8 is currently being processed by HPO staff, Batch 10 is currently with DORES for scanning. Batch 11 will be prepared for transfer to DORES during the current quarter. HPO staff continue to process the scanned documents during the remote working directive, and continue in-house scanning for materials too fragile or unique for processing by DORES. HPO launched a new search tool for scanned reports via DEP's DataMiner portal. Details available at HPO's website. Expenditures in the amount of \$37,339.74 were in support of HPO staff assigned to the project and DORES invoices.

**Activity Description:**

The Hudson River project, known as the “Resist, Delay, Store, Discharge” project, is a comprehensive urban water strategy that would deploy programmed hard infrastructure and soft landscape for coastal defense (resist); generate policy recommendations, guidelines and urban infrastructure to slow rainwater runoff (delay); develop a circuit of interconnected green infrastructure to store and direct excess rainwater (store); and deploy

water pumps and alternative routes to support drainage (discharge). As proposed, a variety of flood risk reduction infrastructure will be built along the Hudson River in order to reduce flood waters, including at Weehawken Cove (to protect Hoboken, Weehawken and critical regional utilities) and by the Hoboken Ferry Terminal. Along Hoboken's downtown thoroughfare, green infrastructure measures, such as permeable paving and rain gardens, would help manage the city's surface water and reduce the risk of flash flooding from rain while enhancing the cityscape. Along NJ Transit's Hudson-Bergen Light Rail, otherwise discrete rainwater storage initiatives would be connected to make a "green circuit." This system would serve as the foundations of a parallel green drainage infrastructure that would reduce the risk of flash flooding from rain, filtering and cleaning storm water and serving as a park for the community. A feasibility study will be completed to determine the final scope of the project and area benefiting. Per HUD waiver this activity has been exempted from the LMI calculation.

**Location Description:**

Hoboken, Jersey City and Weehawken in Hudson County, New Jersey.

**Activity Progress Narrative:**

This quarter, \$138,417.00 was expended for work associated with the Sewer Separation Modification (SSM), which is taking place in the public right-of-way in Hoboken and Hudson County streets where no easements were required. Hoboken-owned property easements have been secured. Other easement acquisition, both public and private, continues for the Resist project.

**Activity Description:**

The "New Meadowlands" project proposes an integrated vision of protecting, connecting and growing the Meadowlands. The project as proposed consists of two principle pieces of new infrastructure: the "Meadowpark" and the "Meadowband." The Meadowpark is a large natural reserve made accessible to the public that will also offer flood risk reduction. It would connect and expand marshland restoration efforts. Around and across the Meadowpark, the team proposes an intricate system of berms and marshes. These will protect against ocean surges and collect rainfall, reducing sewer overflows in adjacent towns. The Meadowband, a raised berm that could potentially include transportation across the top, lies at the edge of the Meadowpark. It offers flood protection, connections between towns and wetlands, and will provide opportunities for towns to grow. A feasibility study will be completed to determine the final scope of the project and area benefiting.

**Location Description:**

**Activity Progress Narrative:**

This quarter, the Rebuild by Design Meadowlands Project Team continued the design phase of the Selected Alternative (Alternative 3 Build Plan). While funds remains in R3 and R4, expenditures totaling \$693,104.69 were made only in R4 this quarter.

**Activity Description:**

The New Jersey Fund for the Landlord Rental Repair Program (the "Program" or "LRRP") is designed to restore small rental properties that were damaged by Superstorm Sandy and that are currently vacant. In addition to increasing the supply of affordable rental housing in areas that were damaged by the storm, the Program will also serve to help revitalize damaged neighborhoods by transforming blighted vacant residential buildings into newly renovated rental properties. The Program will help Landlords ("Landlords") whose residential rental housing businesses were damaged by Superstorm Sandy to recover, enabling them to offer rental housing at affordable rates to low-to-moderate income households and contribute to the local economy through the purchase of goods and services necessary to operate their property.

Superstorm Sandy significantly reduced rental stock in New Jersey, placing upward pressure on rental prices and making rental housing less affordable. This program supports the needs of displaced LMI households by making rental housing more affordable. **Activity Description:**

The New Jersey Fund for the Landlord Rental Repair Program (the "Program" or "LRRP") is designed to restore small rental properties that were damaged by Superstorm Sandy and that are currently vacant. In addition to increasing the supply of affordable rental housing in areas that were damaged by the storm, the Program will also serve to help revitalize damaged neighborhoods by transforming blighted vacant residential buildings into newly renovated rental properties. The Program will help Landlords ("Landlords") whose residential rental housing businesses were damaged by Superstorm Sandy to recover, enabling them to offer rental housing at affordable rates to low-to-moderate income households and contribute to the local economy through the purchase of goods and services necessary to operate their property.

## Activity Description:

The New Jersey Fund for the Landlord Rental Repair Program (the "Program" or "LRRP") is designed to restore small rental properties that were damaged by Superstorm Sandy and that are currently vacant. In addition to increasing the supply of affordable rental housing in areas that were damaged by the storm, the Program will also serve to help revitalize damaged neighborhoods by transforming blighted vacant residential buildings into newly renovated rental properties. The Program will help Landlords ("Landlords") whose residential rental housing businesses were damaged by Superstorm Sandy to recover, enabling them to offer rental housing at affordable rates to low-to-moderate income households and contribute to the local economy through the purchase of goods and services necessary to operate their property.

## Location Description:

Counties: Atlantic, Bergen, Burlington, Camden, Cape May, Cumberland, Essex, Gloucester, Hudson, Mercer, Middlesex, Monmouth, Ocean, Passaic, Somerset, Sussex and Union County.

## Activity Progress Narrative:

The Landlord Rental Repair Program (LRRP) helps repair Sandy-damaged rental properties by providing grants of up to \$50,000 per unit, and requires that repaired units be leased at affordable rates to LMI tenants. Through the close of this quarter, 351 properties (477 units) completed construction through the program, and 16 properties (representing 24 units) were under construction. Also, 477 of the completed housing units were leased at affordable rates to LMI tenants.
